DAY TODAY

BY PETER VIDAL

ARIES (Mar 21 - Apr 20)
The force of an expectation all week, largely due to your lunar alignments. This generates a sense that while life is good, you never know what is around the next corner. Quite right, too. And that's why you must be on your guard.

TAURUS (Apr 21 - May 21)
The Moon's position has to be watched for most daily ups and downs. It's as if the mood of today's patterns are curious ones. It's as if the mood of the times suits you but the circumstances might not. So, if you feel slightly short-changed, it could be because you need to catch your breath.

GEMINI (May 22 - June 21)
There's an increasing sense of tension, perhaps passion. But are you comfortable with this? I suspect not. Not that it, unless you devote yourself to worthy causes and selfless duties. The downside is that you could expose yourself to exploitation. Help others.

CANCER (June 22 - July 23)
You're such a sensitive soul that it's always pleasant when you think that you're getting the support you feel you need. Which means that people you love are on your side for a change, which is not always the way that it seems. You're still keeping one of your plans to yourself.

LEO (July 24 - Aug 23)
You may be in a strange state, quite happy to say what you think on the one hand, but not to reveal your true feelings on the other. Perhaps you're right. Perhaps you're not confident enough in your emotions to be able to talk about them yet. Wait for the right time and place.

VIRGO (Aug 24 - Sep 23)
There is a great deal to be said for standing your ground. But, I'm not sure if it's enough. There's an old eastern proverb that the branch which bends in the wind stays on the tree. That's a way of saying that, in a week of change, complete flexibility is probably your best option.

LIBRA (Sep 24 - Oct 23)
The surface may be calm, but in the astrological universe there's a great deal bubbling underneath, and it's all about to burst through. In straight, practical terms, your energy is soon to be renewed, but you'll also be growing more impatient and eager.

SCORPIO (Oct 24 - Nov 23)
If we look over the next week, then it seems that the changes you experience will be indirect, by which I mean that they could come via other people or in ways you did not expect. In either case, the next month could be a time of mystery.

SAGITTARIUS (Nov 24 - Dec 23)
There's a time to move and a time to stand still. And this, I'd say, is a time to stand still. As is tomorrow and the day after that. So, if you feel the week you'll be moving fast. That is the planetary prognosis. Now all you have to do is arrange your daily diary around it to fit in with the celestial formations.

CAPRICORN (Dec 23 - Jan 20)
Partners are in a generally supportive frame of mind. But then that's only as much as you'd expect. But it is a situation you can embrace by praising, boosting, flattering and helping them. In other words, don't wait for them to come to you. Make the first move.

AQUARIUS (Jan 21 - Feb 19)
You could be taking on fresh responsibilities, mainly emotional ones. Even at work a new task could have a sense of personal, almost parental, commitment about it. There's also a vague spot of financial confusion around it, but you're being directed to give money to worthwhile causes. You can do good.

PISCES (Feb 20 - Mar 20)
The heavens are in a sensitive state. What I really mean by this is that you are in a position to develop and express your unique gifts, whatever they are. Much of your energy will be directed towards personal engagements.
